DETAILED ACTION

Status of the Claims

Claim 17 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 1-16 are allowed.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 17 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 17 is not limited to tangible embodiments. In view of Applicant's disclosure, Specification page 9, lines 9-12, the medium is not limited to tangible embodiments, instead being defined as including both tangible embodiments (e.g., floppy diskettes, CD-ROMS, etc.) and intangible embodiments (e.g., transmission media). As such, the claim is not limited to statutory subject matter and is therefore non-statutory.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: Prior art was not found that explicitly teaches or fairly suggests the controller processing the error by selectively either masking the error from the host or presenting

Art Unit: 2113

the error to the host as being from the controller rather than the data storage system as outlined in claims 1 and 9. This limitation is considered allowable only taken in combination with all other limitations of the independent claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
